

Chip Osborne's organic product list

FERTILIZERS

Granular

Bradfield organics

Espoma – organic formulation (their bridge products are not organic)

North Country organics – pro-gro

Scott's 4 step organic – one organic product

– doesn't like it because the source of Nitrogen in the product is from ground up meat product

Sustane – turkey manure base – one organic product

Landscapers: Renaissance – available through PJC Ecological in Rowley, MA

Pam Newcombe 978-432-1019 website: organicfertilizer.com

Liquid

Firebelly organic (online)

Fish Hydrolysate – Omega-Green

Multi Bloom

Neptune's Harvest – fish-based product

GRASS SEED

Jonathan Green Grass Seed – by far the best

WEED CONTROL ("The best weed control is grass seed." C. Osborne)

Burnout

Scythe

Phydura

Avenger

Horticultural Vinegar – available Online (acetic acid diluted 50/50) – for between stones on walks or on gravel

Corn Gluten – pre emergent – only about 65% effective and quite expensive (not highly recommended)

LIME (base choice on soil test)

Calcidic Lime – high in calcium

Dolomitic Lime – high in magnesium

INSECT CONTROL

Neem Oil (insect growth regulator – beware of inert additives, get higher concentrations of NEEM)

Bt – Bacillus Thuringensis Retailed under the name "Dipel" - Caterpillars
